NEWS LETTER

OCTOBER 2024

Faith Formation

*"Teach us to number our days, that we may gain a heart of wisdom."
- Psalm 90:12."*

HOLY MASS:

1st Friday HOLY MASS

Holy Eucharistic celebration was conducted on 04.10.2024

Campus Superior's Message

Rev.Fr. Vinoth kumar MMI

The greatest gift one can offer a child is a high-quality education. In an increasingly globalized and competitive world, it is essential that children are equipped with 21st-century skills and nurtured in intellectual and academic creativity, empowering them to become future leaders capable of addressing complex global challenges. To prepare students for the demands of tomorrow, we are committed to providing an education of the highest standard, fostering the development of these vital skills and abilities. Our approach encourages students to embark on a journey of exploration, discovering both the intricacies of the natural world and the depths of their own potential.

The school seeks to integrate traditional values with modern wisdom, creating a learning environment where even complex concepts are mastered with ease. As Albert Einstein aptly remarked, "*The important thing is not to stop questioning. Curiosity has its own reason for existing,*" we aim to nurture curiosity and critical thinking in our students, encouraging them to question, explore, and grow intellectually.

Our mission is to offer an exceptional educational experience that prepares students to thrive in the future, instilling in them both a reverence for timeless values and the ability to adapt to modern challenges. Through this harmonious blend of tradition and modernity, we ensure that our students are equipped not only with academic excellence but also with the insight and wisdom necessary to navigate an ever-changing world.

All the very best and God bless all

Yours fraternally

Rev.Fr. Vinoth kumar MMI

Principal's Message

Dr.M.P.Johnson

The function of education is to teach one to think intensively and to think critically. Intelligence plus character that is the goal of true education”.

-Martin Luther King Jr.

The world of 21st century is changing at an accelerated scale. It is a challenge for educators to cope with the changing world order and prepare their students for the future. It has rightly been said by Margaret mead that” Children needs to be taught how to think, not what to think.”

DMI St Joseph Global School, Yagapuram has withstood change since its inception and carters to the needs and aspirations of the society at large. It has always tried to inculcate creativity, critical thinking, innovation, divergent thinking along with proper values of life for its students. The school conducts an array of activities throughout the years bringing out all these skills among children.

This addition school newsletter carries the various activities that were carried out in the month of October. The creative activities were possible by the active participation of students, needless to say the committed and supportive management, dedicated and caring staff, cooperative parents who worked in the backdrop to bring out the best in children.

With regards.
Dr Johnson M P
Principal
